Special Seminar Series  
*Towards a Strategic Approach  
to Science Diplomacy*

---

**Vaughan Turekian**

Director, Center for Science Diplomacy, American  
Association for the Advancement of Science (AAAS)  
Washington DC, USA

**Venue:** *Kastler Lecture Hall  
(ICTP/AGH, lower level one)*

**Wednesday 11 December: 14:00 – 15:30** *(Updated Time)*

*Autumn Science and Diplomacy Lecture: As science becomes more international, and more and more global challenges have science in the fingerprints of their cause and cure, there has been greater awareness of the potential link between science and foreign policy. The lecture will describe the different categories of Science Diplomacy, and provide a brief historical perspective concerning science diplomacy during the Cold War. It will conclude with a discussion of the current issues in science diplomacy.*
